MY CREATIVE PROCESS

01 Understand the Brief

Grasp project goals, target audience, platform requirements, and creative direction.

02 Collect & Organise Assets

Gather raw footage, audio files, graphics, and reference materials. Organise for efficiency.

03 Rough Cut

Assemble the initial timeline - place clips, establish flow, build the story structure.

04 Transitions & Effects

Add smooth transitions, motion effects, text overlays, and visual elements.

05 Audio & Colour

Synchronise music and sound, apply colour correction, ensure visual consistency.

06 Final Review

Watch the complete edit multiple times. Check timing, errors, and overall impact.

07 Export & Deliver

Render in correct format, resolution, and specs for the target platform.

TECHNICAL BACKGROUND

My computer science foundation gives me an edge in understanding digital media at a deeper level - from file formats and compression to rendering pipelines and platform algorithms.

Computer Science Fundamentals	Python Programming	HTML / CSS / Web Basics	Problem Solving
File Management & Organisation	Troubleshooting & Debugging	Data Handling & Analysis	AI Tool Awareness
Cloud Services / Git	Mobile Technology
